Performance is historical and does not guarantee future results. Investment return and principal value will fluctuate with changing market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Investors cannot directly invest in an index, and unmanaged index returns do not reflect any fees, expenses, or sales charges. The volatility of an index may be materially different than that of the Fund, and investors should not expect the Fund to achieve the same results as a listed index. Performance data current to the most recent month-end may be obtained by calling 1-877-771-EVEN (3836).

1. Does not include cash/money market funds/equivalents. Based on percentage of net assets. Holdings can change at any time and should not be considered investment advice.

2. The returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption of fund shares. Because of ongoing market volatility, fund performance may be subject to

substantial short-term changes.

3. Since inception figures use an inception date of 7/31/2020.

4. The Bloomberg Barclays U.S. Aggregate Bond Index is a broad based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market. This includes Treasuries, government-related and corporate securities, mortgage backed securities, asset-backed

securities and collateralized mortgage-backed securities.

5. SEC Yield is based on a 30-day (or one-month) period ending 9/30/2020 and is calculated by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period. For more information see SEC Form N-1A, p. 56.

MANAGERS

Dolores Bamford, CFA serves as Portfolio Manager for the Eventide Multi-Asset Income Fund, the Eventide Dividend Opportunities Fund, the Eventide Core Bond Fund, and the Eventide Limited-Term Bond Fund. She also serves as the Director of Investment Research for Eventide. Prior to joining Eventide in 2019, Ms. Bamford was with Goldman Sachs Asset Management for 13 years (2002-2015), most recently as Managing Director and Portfolio Manager on U.S. Value Equity. She also led Goldman Sachs's U.S. Responsible Equity investments and co-led the Global Sustain Equity and Midcap Value Equity investments. Previously, Ms. Bamford was with Putnam Investments for 10 years (1992-2002), where she served as Senior Vice President and Portfolio Manager and Analyst on multiple value investments. Before that, Ms. Bamford was with Fidelity Investments (1988-1990), where she served in investment research. Ms. Bamford holds an S.M. in Management from the MIT Sloan School of Management, a dual M.A. in Theology and Church History from Gordon-Conwell Theological Seminary, and a B.A. in Economics from Wellesley College. She is a CFA Charterholder and member of the Boston Society of Security Analysts and the CFA Institute.

Sub-Adviser: Boyd Watterson Asset Management, LLC.

1. Refer to the Fund's SAI for definition of Other Expenses.
 2. The adviser has contractually agreed to waive fees and/or reimburse expenses of the Fund through 10/31/2021. The agreement may only be terminated by the Fund's Board of Trustees on 60 days' written notice.
 3. Class A is also subject to a maximum deferred sales charge of 1.00%. This and other expenses that apply to a continued investment in the Fund are described in the Fund's prospectus.
 4. Allocation percentages are subject to change at any time, and should not be considered investment advice.
 5. Includes cash, cash equivalents, money market funds, impact bonds and options.
 6. The ratings allocation reflects the Standard & Poor's equivalent ratings

category for the higher credit quality rating assigned by either Standard & Poor's, Moody's, or DBRS. Credit quality does not remove market risk. Ratings apply to the credit worthiness of the issuers of the underlying securities and not the Fund or its shares. Ratings are subject to change.
 7. Source: © Morningstar, Inc. (2020). All rights reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. The performance and risk factor comparisons are against the Bloomberg Barclays 1-5 Year Government/Credit Index. Alpha is a measure of performance on a risk-adjusted basis. It takes the volatility

(price risk) of a fund and compares its risk-adjusted performance to the Index. Any excess return of a fund relative to the return of the Index is a fund's alpha. Beta is a measure of the volatility of a fund relative to the Index. A beta greater than 1 is more volatile than the Index. R-Squared is a measure of how a fund's performance correlates with the Index's performance and it can help assess how likely it is that beta is statistically significant. Standard Deviation of return measures the amount of variation in historical performance from period to period.
 8. Annualized since inception figures use an inception date of 8/1/2020 and not the actual inception date of 7/31/2020 as only full month data is used in Market Risk calculations.

Mutual funds involve risk including the possible loss of principal. Past performance does not guarantee future results. The Fund's ethical values screening criteria could cause it to under-perform similar funds that do not have such screening criteria. Investors in the Fund should be aware that interest rates may change at any time based on government policy. In general, the price of a fixed income security falls when interest rates rise. Longer term securities may be more sensitive to changes in interest rates. A rise in interest rates may result in volatility and increased redemptions, which in turn could result in the Fund being forced to liquidate portfolio securities at disadvantageous prices. Interest rates are sensitive to changes in inflation, and investing in bonds exposes investors to inflation risk. Bonds may be subject to default, causing loss of invested capital. Fixed income investments may be of any maturity or credit quality, but the Fund's weighted average effective portfolio duration will be between three years and nine years. The Fund may invest, directly or indirectly, in "junk bonds." Such securities are speculative investments that carry greater risks than higher quality debt securities. There are unique risks associated with asset backed securities, convertible securities, credit, duration, emerging markets, extension, foreign securities, income, mortgage back securities, municipal bonds, preferred stocks, pre-payment, securities, sovereign debt, and U.S. Agency securities that are covered in the Fund's prospectus and SAI.

Investors should consider a fund's investment objectives, risks, charges and expenses carefully before investing or sending money. This and other important information can be found in the prospectus, which can be obtained at <https://www.eventidefunds.com/prospectus-crb> or by calling 1-877-771-EVEN (3836). Please read the prospectus carefully before investing. Eventide Mutual Funds are distributed by Northern Lights Distributors, LLC, Member FINRA/SIPC, which is not affiliated with Eventide Asset Management, LLC.
