The Eventide Dividend Opportunities Fund¹ is a diversified mutual fund seeking to provide dividend income and long-term capital appreciation with the added objective of dividend growth. The Fund seeks to achieve its objectives by normally investing at least 80% of net assets in high-quality, dividend-paying companies.

The Fund invests in securities of companies that we believe demonstrate values and business practices that are ethical, sustainable, and provide an attractive investment opportunity.

Performance is historical and does not guarantee future results. Investment return and principal value will fluctuate with changing market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Investors cannot directly invest in an index, and unmanaged index returns do not reflect any fees, expenses, or sales charges. The volatility of an index may be materially different than that of the Fund, and investors should not expect the Fund to achieve the same results as a listed index. Performance data current to the most recent month-end may be obtained by calling 1-877-771-EVEN (3836).

1. Prior to 10/1/2019, the Fund's name was the Eventide Global Dividend Opportunities Fund.
2. Does not include cash/money market funds/ equivalents. Based on percentage of net assets. Holdings can change at any time and should not be considered investment advice.
3. The returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption of fund shares. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes.
4. The table displays the Fund's Class N distributions for the periods shown. The distributions will differ for other fund classes, based upon fees and

commissions. Distributions consist of dividend and interest income, capital gains, and/or return of capital. Shareholders should not assume that Fund distributions represent net profit. Income may be distributed regardless of whether such income will be treated as return of capital.
5. NAV presented is as of the date of the respective distribution.
6. SEC Yield is based on a 30-day (or one-month) period ending 6/30/2020 and is calculated by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period. For more information see SEC Form N-1A, p. 56.
7. Performance figures for periods greater than 1 year are annualized. Annualized since inception figures assume an inception date of 9/29/2017.

8. The Fund's primary benchmark to compare its performance has been changed from the MSCI ACWI (net) Index to the Russell Midcap Value Index because the Fund's Adviser believes it is more reflective of the Fund's portfolio. The Russell Midcap Value Index measures the performance of the U.S. equity mid-cap value segment. The Fund's previous benchmark, the MSCI All Country World Index is a free float adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets and consists of 46 country indices comprising 23 developed and 23 emerging market country indices.

1. Refer to the Fund's SAI for definition of Other Expenses.
2. The adviser has contractually agreed to waive fees and/or reimburse expenses of the Fund through 10/31/2020. The agreement may only be terminated by the Fund's Board of Trustees on 60 days' written notice.
3. Class A is also subject to a maximum deferred sales charge of 1.00%. This and other expenses that apply to a continued investment in the Fund are described in the Fund's prospectus.
4. Domicile percentages can change at any time and should not be considered investment advice.
5. Includes cash, cash equivalents, money market funds, impact bonds and options.
6. The range shows the highest and lowest turnover ratio reported in the

- Annual Report during the last two fiscal years, ending 6/30/2019. Portfolio turnover is the percentage of the portfolio that was bought or sold (lesser) during a fiscal year. A higher portfolio turnover may indicate higher transaction costs for the Fund, and may result in higher taxes for investors.
7. Allocation percentages are subject to change at any time, and should not be considered investment advice.
 8. Source: © Morningstar, Inc. (2020). All rights reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. The performance and risk factor comparisons are against

- the Russell Midcap Value Index. Alpha is a measure of performance on a risk-adjusted basis. It takes the volatility (price risk) of a fund and compares its risk-adjusted performance to the Index. Any excess return of a fund relative to the return of the Index is a fund's alpha. Beta is a measure of the volatility of a fund relative to the Index. A beta greater than 1 is more volatile than the Index. R-Squared measures how a fund's performance correlates with the Index's performance and it can help assess how likely it is that beta is statistically significant. Standard Deviation of return measures the amount of variation in historical performance from period to period.
9. Annualized since inception figures assume an inception date of 10/1/2017 and not the actual inception date of 9/29/2017 as only full month data is used in Market Risk calculations.

Mutual funds involve risk including the possible loss of principal. Past performance does not guarantee future results. The Fund's ethical values screening criteria could cause it to under-perform similar funds that do not have such screening criteria. The Fund can have risk related to option investing. Companies in the Utilities sector are subject to interest rate risk and cash flow risk. Companies in the technology industries have different risks including but not limited to products becoming obsolete, and entrance of competing products. Companies in the Industrial Sector carry various risks including, but not limited to, risk related to debt loads, intense competition, and sensitivity to economic cycles. There are unique risks associated with convertible securities, emerging markets, foreign securities, MLPs, preferred stocks, REITs, small cap stocks, securities, and yieldcos that are covered in the Fund's prospectus and SAI.

Investors should consider a fund's investment objectives, risks, charges and expenses carefully before investing or sending money. This and other important information can be found in the prospectus, which can be obtained at www.eventidefunds.com or by calling 1-877-771-EVEN (3836). Please read the prospectus carefully before investing. Eventide Mutual Funds are distributed by Northern Lights Distributors, LLC, Member FINRA/SIPC, which is not affiliated with Eventide Asset Management, LLC.
