

Class A: ETAMX | Class C: ETCMX | Class I: ETIMX | Class N: ETNMX

The Eventide Multi-Asset Income Fund is a diversified mutual fund seeking to provide attractive levels of current income with the added objective of long-term capital appreciation. The fund seeks to achieve its objectives by balancing exposure between fixed-income, equity-income, and alternative income categories.

The fund invests in securities of companies and other entities that we believe demonstrate values and business practices that are ethical, sustainable, and provide an attractive investment opportunity.

Performance is historical and does not guarantee future results. Investment return and principal value will fluctuate with changing market conditions so that when redeemed shares may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Investors cannot directly invest in an index and unmanaged index returns do not reflect any fees, expenses, or sales charges. To obtain the most recent month-end performance information and a current Eventide Multi-Asset Income Fund prospectus please call the fund toll free at 1-877-771-EVEN (3836).

- Does not include money market funds. Based on percentage of net assets. Holdings can change at any time and should not be considered investment advice.
- The numbers shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption of fund shares. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes.
- The table displays the Eventide Multi-Asset Income Fund Class N's dividend and capital gains distributions for the periods shown. The distributions will differ for other fund classes, based upon fees and commissions. The total distribution may represent dividend and interest income, capital gains, and/or return of capital. Shareholders should not assume that the source of a distribution from the fund is net profit. As of 6/30/19, the distributions represented contain no return of capital. The characterization of income is an estimate only and subject to change for tax purposes.
- NAV presented is as of the date of the respective quarter end.
- SEC Yield is calculated based on a 30-day (or one month) period ending on the date of the most recent balance sheet by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period. For more information see SEC form 1-A, p. 56.
- Performance figures for periods greater than 1 year are annualized. Annualized since inception returns assume an inception date of July 15, 2015.
- The Multi-Asset Income Blend is a proprietary Eventide benchmark based on 60% MSCI All Country World Index (Net), 40% Bloomberg Barclays US Aggregate Bond Index at inception, rebalanced monthly. The MSCI All-Country World Index (Net) captures large and mid cap representation across 23 developed markets and 23 emerging markets. The Bloomberg Barclays US Aggregate Bond Index is a broad measure of the investment grade, US dollar-denominated, fixed-rate taxable bond market. The volatility of the indices may be materially different than that of the fund, and investors should not expect the fund to achieve the same results as the indices listed.

1. Class A is also subject to a maximum deferred sales charge of 1.00%
 2. Acquired Fund Fees and Expenses
 3. The adviser has contractually agreed to waive fees and/or reimburse expenses of the fund through 31 October 2019. The agreement may only be terminated by the fund's Board of Trustees on 60 days' written notice.
 4. Fund allocation percentages are subject to change at any time, and should not be considered investment advice.
 5. Portfolio turnover is the percentage of the portfolio that was bought or sold (lesser) during a fiscal year ending on June 30th. A higher portfolio turnover may indicate higher transaction costs for the fund and may result in higher taxes for investors. The range shows the highest and lowest turnover ratio reported in the Annual Report during the last three years.
 6. Source: © Morningstar, Inc. (2019). All rights reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content

providers are responsible for any damages or losses arising from any use of this information. The performance and risk factor comparisons are against the S&P 500 Total Return Index ("Index"). The S&P 500 is an index created by Standard & Poor's of American stocks with the largest market capitalization. Alpha is a measure of performance on a risk-adjusted basis. It takes the volatility (price risk) of a fund and compares its risk-adjusted performance to the Index. Any excess return of the fund relative to the return of the Index is a fund's alpha. Beta is a measure of the volatility of a fund relative to the Index. A beta greater than 1 is more volatile than the Index. R-Squared measures how a fund's performance correlates with the Index's performance and it can help assess how likely it is that beta is statistically significant. Standard Deviation of return measures the amount of variation in historical performance from period to period.
 7. Annualized since inception market risk details assume inception date of 1 August 2015 and not Class N's actual inception date of 15 July 2015, as only full month data is included in the market risk calculations.

Mutual funds involve risk including the possible loss of principal. Past performance does not guarantee future results. The fund's ethical values screening criteria could cause it to under-perform similar funds that do not have such screening criteria. The fund can have risk related to option investing. There are special risks associated with investments in foreign companies including exposure to currency fluctuations, less efficient trading markets, political instability and differing auditing and legal standards. Investors in the Eventide Multi-Asset Income Fund should be aware that interest rates may change at any time based on government policy. In general, the price of a fixed income security falls when interest rates rise. A rise in interest rates may result in volatility and increased redemptions, which in turn could result in the fund being forced to liquidate portfolio securities at disadvantageous prices. Longer term securities may be more sensitive to changes in interest rates. The intermediate-term bond portion of the fund's portfolio may represent 0% to 100% of the fund's portfolio with an average duration of between two and eight years. The fund may invest in other funds. If other funds are utilized, such underlying funds are subject to investment advisory and other expenses, which will be indirectly paid by the fund. As a result, your cost of investing in the fund will be higher than the cost of investing directly in underlying funds and may be higher than other mutual funds that do not invest in underlying funds. The fund may invest, directly or indirectly, in "junk bonds." Such securities are speculative investments that carry greater risks than higher quality debt securities. There are unique risks associated with REITs, MLPs, preferred stocks, convertible bonds, BDCs, and yieldcos that are covered in the fund's prospectus and SAI.

An investor should consider a fund's investment objectives, risks, charges and expenses carefully before investing or sending money. This and other important information can be found in the prospectus, which can be obtained at www.eventidefunds.com or by calling 1-877-771-EVEN (3836). Please read the prospectus carefully before investing. Eventide Mutual Funds are distributed by Northern Lights Distributors, LLC, Member FINRA, which is not affiliated with Eventide Asset Management, LLC.

MANAGERS

Dolores Bamford, CFA serves as Portfolio Manager for the Eventide Multi-Asset Income Fund, the Eventide Global Dividend Opportunities Fund, and the Eventide Limited-Term Bond Fund. Ms. Bamford has over 25 years of investment experience. Prior to joining Eventide in 2019, Ms. Bamford was with Goldman Sachs Asset Management for 13 years (2002-2015), most recently as Managing Director and Portfolio Manager on U.S. Value Equity. She also led Goldman Sachs's U.S. Responsible Equity investments and co-led the Global Sustain Equity investments. Previously, Ms. Bamford was with Putnam Investments for 10 years (1992-2002), where she served as Senior Vice President and Portfolio Manager and Analyst on multiple value investments. Before that, Ms. Bamford was with Fidelity Investments (1988-1990), where she served in investment research. Ms. Bamford holds an S.M. in Management from the MIT Sloan School of Management, a dual-M.A. in Theology and Church History from Gordon-Conwell Theological Seminary, and a B.A. in Economics from Wellesley College. She is a CFA Charterholder and member of the Boston Society of Security Analysts.

David M. Dirk, CFA serves as the Portfolio Manager for some or all of the fund's intermediate-term bond portion. Mr. Dirk has been co-director of fixed income for the fund's sub-advisor, Boyd Watterson, with responsibility of directing all portfolio management and trading activity since 2011. This includes the implementation, execution, and evaluation of all strategies across Boyd Watterson's suite of fixed income products. Mr. Dirk joined Duff & Phelps, predecessor to Boyd Watterson Asset Management, in 1996. David holds a CFA Charter from CFA Institute, an MBA from Case Western Reserve University, and a BA from Baldwin-Wallace College. He is also a member of the CFA Society of Cleveland and CFA Institute.
