

Class A: ETAMX | Class C: ETCMX | Class I: ETIMX | Class N: ETNMX

The Eventide Multi-Asset Income Fund is a diversified mutual fund seeking to provide attractive levels of current income with the added objective of long-term capital appreciation. The Fund seeks to achieve its objectives by balancing exposure between fixed-income, equity-income, and alternative income categories.

The Fund invests in securities of companies and other entities that we believe demonstrate values and business practices that are ethical, sustainable, and provide an attractive investment opportunity.

------------------------------------	--------	--------	--------	-------

Performance is historical and does not guarantee future results. Investment return and principal value will fluctuate with changing market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Investors cannot directly invest in an index, and unmanaged index returns do not reflect any fees, expenses, or sales charges. The volatility of an index may be materially different than that of the Fund, and investors should not expect the Fund to achieve the same results as a listed index. Performance data current to the most recent month-end may be obtained by calling 1-877-771-EVEN (3836).

1. Does not include cash/money market funds/ equivalents. Based on percentage of net assets. Holdings can change at any time and should not be considered investment advice.
 2. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Because of ongoing market volatility, Fund performance may be subject to substantial short-term changes.
 3. The table displays the Eventide Multi-Asset Income Fund Class N's dividend and capital gains distributions for the periods shown. The distributions will differ for other fund classes, based upon fees and commissions. The total distribution may represent dividend and interest income, capital gains, and/or return of capital. Shareholders should not assume that the source of a distribution from the Fund is net profit. As of 12/31/2019, the distributions represented contain no return of capital. The characterization of income is an

estimate only and subject to change for tax purposes.
 4. NAV presented is as of the date of the respective quarter end.
 5. SEC Yield is based on a 30-day (or one-month) period ending 12/31/2019 and is calculated by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period. For more information see SEC form N1-A, p. 56.
 6. Performance figures for periods greater than 1 year are annualized. Annualized since inception returns assume an inception date of 7/15/2015.
 7. The Fund's primary benchmark to compare its performance has been changed from the MSCI ACWI (net) Index to the Russell Midcap Value Index because the Fund's Adviser believes it is more reflective of the Fund's portfolio. The Russell Midcap Value Index measures the performance of the U.S. equity mid-cap value segment. The Bloomberg Barclays U.S. Intermediate Aggregate Bond Index is a market capitalization-weighted index, meaning

the securities in the index are weighted according to the market size of each bond type. Most U.S.-traded investment grade bonds are represented. Municipal bonds and Treasury Inflation-Protected Securities are excluded. The index includes Treasury securities, Government agency bonds, mortgage-backed bonds, corporate bonds, and a small amount of foreign bonds traded in the U.S. The Multi-Asset Income Blend is a proprietary Eventide benchmark composed of 50% Russell Midcap Value Index and 50% Bloomberg Barclays U.S. Intermediate Aggregate Bond Index. The Fund's previous benchmark, the MSCI All Country World Index is a free float adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets and consists of 46 country indices comprising 23 developed and 23 emerging market country indices.

1. Refer to the Fund's SAI for definition of Other Expenses.
2. The advisor has contractually agreed to waive fees and/or reimburse expenses of the Fund through 10/31/2020. The agreement may only be terminated by the Fund's Board of Trustees on 60 days' written notice.
3. Class A is also subject to a maximum deferred sales charge of 1.00%. This and other expenses that apply to a continued investment in the Fund are described in the Fund's prospectus.
4. Allocation percentages are subject to change at any time, and should not be considered investment advice.
5. Includes cash, cash equivalents, money market funds, impact bonds and options.
6. The range shows the highest and lowest turnover ratio reported in the Annual Report during the last three years, ending 6/30/2019. Portfolio turnover is the percentage of the portfolio that was bought or sold (lesser) during a fiscal year. A higher portfolio turnover may indicate higher transaction costs for the Fund, and may result in higher taxes for investors.
7. Source: © Morningstar, Inc. (2020). All rights reserved. The information

- contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. The performance and risk factor comparisons are against the Russell Midcap Value Index. Alpha is a measure of performance on a risk-adjusted basis. It takes the volatility (price risk) of a fund and compares its risk-adjusted performance to the Index. Any excess return of the fund relative to the return of the Index is a fund's alpha. Beta is a measure of the volatility of a fund relative to the Index. A beta greater than 1 is more volatile than the Index. R-Squared measures how a fund's performance correlates with the Index's performance and it can help assess how likely it is that beta is statistically significant. Standard Deviation of return measures the amount of variation in historical performance from period to period.
8. Annualized since inception returns assume an inception date of 8/1/2015 and not the actual inception date of 7/15/2015 as only full month data is used in the calculations.

Mutual funds involve risk including the possible loss of principal. Past performance does not guarantee future results. The Fund's ethical values screening criteria could cause it to under-perform similar funds that do not have such screening criteria. The Fund can have risk related to option investing. Investors in the Fund should be aware that interest rates may change at any time based on government policy. In general, the price of a fixed income security falls when interest rates rise. Longer term securities may be more sensitive to changes in interest rates. The intermediate-term bond portion of the Fund's portfolio may represent 0% to 100% of the Fund's portfolio with an average duration of between two and eight years. The Fund may invest, directly or indirectly, in "junk bonds." Such securities are speculative investments that carry greater risks than higher quality debt securities. There are unique risks associated with convertible securities, credit, emerging markets, foreign securities, MLPs, preferred stocks, REITs, securities, small cap stocks, U.S. Agency securities, and yieldcos that are covered in the Fund's prospectus and SAI.

Investors should consider a Fund's investment objectives, risks, charges and expenses carefully before investing or sending money. This and other important information can be found in the prospectus, which can be obtained at www.eventidefunds.com or by calling 1-877-771-EVEN (3836). Please read the prospectus carefully before investing. Eventide Mutual Funds are distributed by Northern Lights Distributors, LLC, Member FINRA, which is not affiliated with Eventide Asset Management, LLC.

MANAGERS

Dolores Bamford, CFA serves as Portfolio Manager for the Eventide Multi-Asset Income Fund, the Eventide Dividend Opportunities Fund, and the Eventide Limited-Term Bond Fund. Ms. Bamford has over 25 years of investment experience. Prior to joining Eventide in 2019, Ms. Bamford was with Goldman Sachs Asset Management for 13 years (2002–2015), most recently as Managing Director and Portfolio Manager on U.S. Value Equity. She also led Goldman Sachs' U.S. Responsible Equity investments and co-led the Global Sustain Equity investments. Previously, Ms. Bamford was with Putnam Investments for 10 years (1992–2002), where she served as Senior Vice President and Portfolio Manager and Analyst on multiple value investments. Before that, Ms. Bamford was with Fidelity Investments (1988–1990), where she served in investment research. Ms. Bamford holds an S.M. in Management from the MIT Sloan School of Management, a dual-M.A. in Theology and Church History from Gordon-Conwell Theological Seminary, and a B.A. in Economics from Wellesley College. She is a CFA Charterholder and member of the Boston Society of Security Analysts.

David M. Dirk, CFA serves as the Portfolio Manager for some or all of the Fund's intermediate-term bond portion. Mr. Dirk has been co-director of fixed income for the Fund's sub-advisor, Boyd Watterson, with responsibility of directing all portfolio management and trading activity since 2011. This includes the implementation, execution, and evaluation of all strategies across Boyd Watterson's suite of fixed income products. Mr. Dirk joined Duff & Phelps, predecessor to Boyd Watterson Asset Management, in 1996. David holds a CFA Charter from CFA Institute, an MBA from Case Western Reserve University, and a BA from Baldwin-Wallace College. He is also a member of the CFA Society of Cleveland and CFA Institute.
